

Memes — Detection vs. Interpretation Disagreement (majority-YES instances, n=2038)

Detection converges:
Task 2.1 entropy = 0.555
(moderate, below midpoint)

Interpretation diverges:
Task 2.2 entropy = 0.701
(near maximum of 1.0)

Task 2.3 Jaccard = 0.418
(low category overlap)

People agree something
sexist is happening, but
disagree on what was
intended and what kind.
